Voting in the Presidential Election

Q: Is California having a Presidential Election on November 3?

A: Yes. Federal law sets the first Tuesday after November 1 as Election Day for all federal general elections, including President. The 2020 Presidential Election is on Tuesday, November 3, with the opportunity to vote a few days earlier in many counties. This election, California voters with an active registration status will automatically be sent a ballot in the mail but will have options for voting in-person or returning their ballot by mail or at a drop-box. Contact your elections office to learn more about voting in your county and to check your registration status or visit <https://voterstatus.sos.ca.gov/>

Q: How is voting changing because of the pandemic?

A: Due to the pandemic, election officials are finding ways to make voting safe, secure, and accessible for everyone by sending every California voter with an active registration a ballot in the mail, all while offering several options for casting a ballot.

As a registered voter, you can choose to vote in-person, to return your ballot by mail, to drop it off at a voting location or drop box, or to have a trusted person return your ballot for you. Ballots will be mailed to the address listed with your county elections office. Check that your voter status and address are current at <https://voterstatus.sos.ca.gov/>

Many counties are offering early in-person voting, including voting on a weekend and expanded hours. Contact your elections office to learn more about voting in your county.

When visiting a voting location, you are encouraged to wear a face covering and to maintain physical distancing, as indicated in public health guidelines. Follow the posed instructional signs and any indications provided by staff. All voters are guaranteed the right to vote and will be assisted.

Getting ready to vote

Q: How do I register to vote?

A: Register to vote online at <https://registertovote.ca.gov/>. You can also contact your elections office to request a paper registration form.

In California, you are eligible to register and vote if you are:

- a U.S. citizen living in California
- at least 18-years-old
- registered where you currently live
- not currently in state or federal prison or on parole for the conviction of a felony
- not currently found mentally incompetent to vote by a court

After October 19, 2020 you will be able to register and vote on the same day at a designated location. You will be able to vote and your ballot will count once your elections office verifies your registration. This is called Same Day Voter Registration. Learn more by contacting your elections office.

If you are 16 or 17-years-old and meet all the other eligibility requirements above, you can pre-register to vote in California. For more information, see <https://www.sos.ca.gov/elections/voter-registration/>. You can also learn more about the voting rights for people impacted by the criminal legal system at letmevoteca.org.

Q: How do I check if I am registered to vote?

A: Check your voter registration at <https://voterstatus.sos.ca.gov/> or call (800) 345-VOTE (8683). Make sure you are registered to vote at your current address. All California voters with active registrations will automatically be sent a ballot to the address currently on file.

In accordance with California state laws, voters are given an “inactive” status when a county elections office receives returned mail undeliverable without a forwarding address or receives notice that the voter has moved out of state. An inactive voter may restore their active voter status by simply voting in an election, or contacting their elections office.

Under certain circumstances, inactive voters may be removed from the voter registration list if they do not confirm or update their registration, and if they do not vote in two consecutive federal elections after they are made inactive.

Q: What should I do if I moved or changed my address since I last voted?

A: Update your voter registration online at <https://registertovote.ca.gov/> or contact your elections office to request a paper registration form.

Q: How do I request a Vote by Mail ballot in California?

A: A ballot will be automatically sent to you as long as you are registered to vote at the correct address 15 days before Election Day.

If you do not register to vote 15 days beforehand — by October 19 — then you can still vote, just not by mail. You will need to register to vote in person and fill out a provisional ballot.

Q: What is the deadline to register to vote?

A: To receive all of your election materials on time, you should register to vote by October 19. However, you can register and vote all the way up to and on Election Day, Tuesday, November 3. This is called Same Day Registration or Conditional Voter Registration. Your ballot will be processed and counted once your elections office completes the voter registration verification process.

Visit <https://caearlyvoting.sos.ca.gov/> for a list of early voting locations where you can complete the Same Day Voter Registration Process. If your county is hosting vote centers, you can visit any vote center in the county to get assistance right through Election Day. If your county is hosting polling locations, contact your county elections office to learn where to register and vote on Election Day.

If you are not registered to vote and cannot leave your house to go to a voting location, contact your county elections office to ask how you register and vote remotely by using “Remote Accessible Vote by Mail.”
